

Amendments to the Specification

1. Please amend the following paragraph beginning on Page 18, line 21 of the Substitute Specification (with changes shown version) as follows:

“The Central Processor Unit 103 directs the Timer Unit 105 by presenting commands that are calculated during the execution of the “functional program” to the Timer Unit 105 through a set of digital electrical signals 304a. The commands instruction Timer Unit 105 on the time intervals that are to be generated. The Timer Unit 105 relays time interval information to the Central Processor Unit 103 through a set of digital electrical signals 304. The Central Processor Unit 103 uses the timer interval information for purposes of indicating when one or a set of instructions of the “functional program” should execute. The ~~provides the ability of the~~ Central Processor Unit 103 has the ability to synchronize the execution of one or a set of instructions of the “functional program” to a precise point in time or an interval of time.”.

2. Please amend the Title of the Invention to the following:

“IMPROVED INCENTIVE SPIROMETRY DEVICES BY THE EMPLOYMENT OF VERBAL SIMULATED HUMANLIKE VOICES”.
